

Selective Call Acceptance

**Gives you control
over which calls
you'll take.**

Selective Call Acceptance

When the service is turned ON, allows you to receive calls only from those on your acceptance list. Callers not on your list will simply hear an announcement that you are not accepting calls at this time.

How to use:

1. Pick up the handset and listen for dial tone.
2. Press *64. (If on Metaswtich, press *78 to activate & *79 to disable) Ask a Western Iowa Telephone service tech, which switch you're on.
3. Listen for an announcement telling you whether the feature is currently on or off. The recorded voice will then tell you how many (if any) numbers are currently stored on your acceptance list.
4. Follow the voice instructions and dial 3 to turn the feature ON (if it is currently off), or turn the feature OFF (if it is currently on).

Selective Call Acceptance cont.
