Tune Up Your Computer For The New Year!

Is your computer running a little sluggish? It may be in need of a tune up to get it back to working efficiently.

To help enhance security and performance, make sure your computer has the latest operating system update installed.

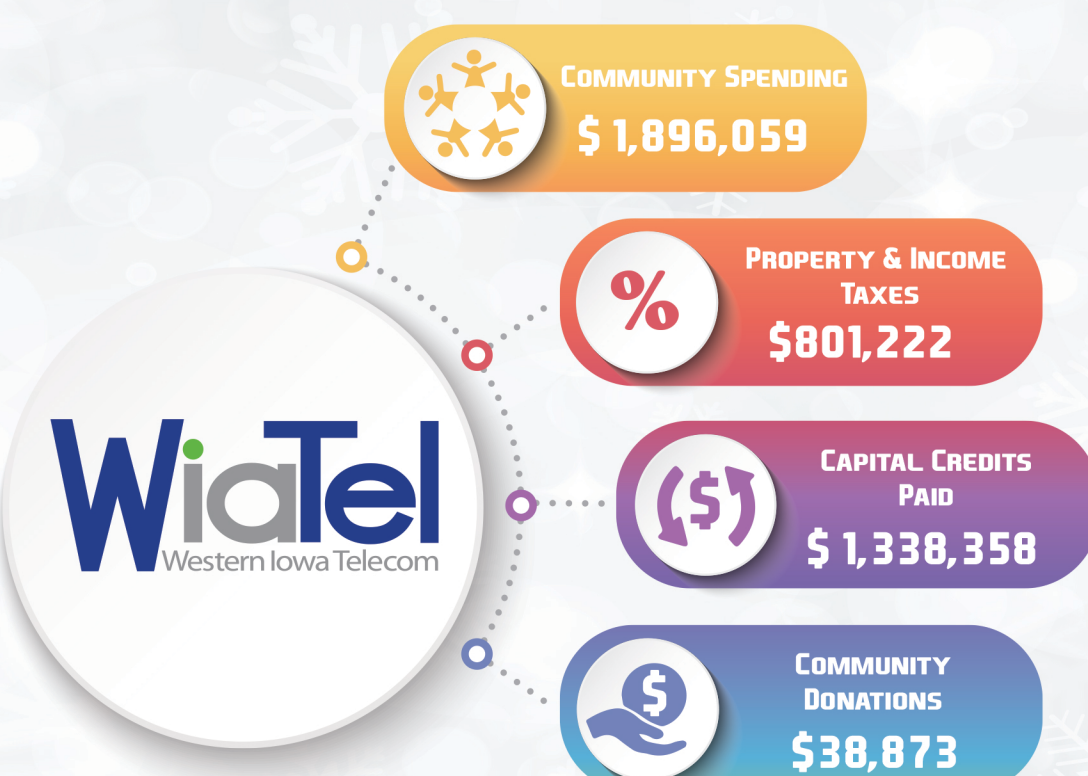

Uninstall any unused programs. Many will continue to run in the background even when they are not being used, thus taking up memory and disk space.

Keep your anti-virus up to date to protect your computer from the latest virus, spyware & malware threats.

Don't have time to do a tune up on your computer? Bring it into the Solution Center & we'll do a full tune up for \$59.95!
